

2020

We're dedicated to safety

We design our products to pass the strictest safety standards in the world, and we want to take our passion for protecting little ones even further. NUNA has partnered with the United Nations Institute for Training and Research (UNITAR) to advance child road safety education around the world.

New for 2020

relx™ base

Your life now is focused on firsts—first words, first steps. Our innovative RELX base is one of the first to feature an adjustable stability leg to fit in center seating positions and a wider range of vehicles. It also features a steel-reinforced rigid latch adjusting across four positions for a better fit against your vehicle seat.

Colored indicators take the guesswork out of installation, and the bubble-free, numbered, on-the-go recline means you can change positions as your baby grows without having to uninstall the base. The lockoff with easy-access belt path makes it simple to install with the vehicle belt. The smooth platform won't take a toll on your vehicle seats, and the low profile allows for easier loading of any Nuna PIPA series infant car seat.

Problems solved—all of them. What else is left?
Ah, yes. Relax.

**Aids in ease
of install**

True lock* installation makes set up swift, simple and above all—safe.

**Anti-rebound
panel**

aids in ease of installation and helps to achieve a tight install. It also reduces rearward motion.

*On-the-go** **recline**

can be adjusted to one of four positions with the push of a button as your baby grows.

Bubble-free install

means peace of mind. Achieve an ideal fit for your child using the positions indicated for their height and weight.

*All adjustments should be made when the vehicle is stopped or by someone other than the driver when the vehicle is in motion. Distracted Driving Kills.

Three-position *steel stability leg*

for better fit to vehicle, with a wide range of adjustment to fit more vehicles and center seating positions.

Vehicle seat belt *lock off*

makes belt routing easy with the open belt path, and opens smoothly with the touch of a button. Natural belt angles for lap and shoulder belts accommodate more vehicles.

First travels,
relaxed rides

pipa rx

pipa™ rx

It's a brand-new world for them. Your world has forever changed. Enjoy every magical moment with PIPA rx, a car seat bringing such comfort to your baby, you'll feel it too.

It starts with a full-coverage canopy with pull-out Dream drape™ attaching silently with magnets and keeping them shaded. Then there's the soft, organic jersey insert with two removable pieces for their customized comfort as they grow. Install easily in a cab directly using the belt path on the shell—no base necessary—or in the family car with the RELX base, featuring on-the-go recline.

Equal in versatility and safety, PIPA rx is fashioned solely from materials that are free of fire retardant additives. Give them—and yourself—a good start on the journey.

PIPA rx *highlights*

Ideal for city living and taxis as it can be installed with a vehicle seat belt—no base needed.

Additional features:

- **Dream drape** pulls down smoothly and attaches quietly with magnets. Because nothing beats a lovely, uninterrupted nap.
- **All-season UPF 50+ canopy** with flip out eyeshade and peek-a-boo window. Ready for the great outdoors, whatever the weather.
- **Two-piece removable infant insert + head support.** Customize to their individual shape and get a perfect fit right from birth.
- **Buckle holders** keep the harness out of the way when needed
- Includes new **RELX base**

**Life is full,
*carry less***

pipa™ liter

pipa™ lite r

Appointments and errands, plus naps and playdates—you do enough. Ease your daily juggle with the featherweight PIPA® lite r.

Only premium materials can achieve this airiness— aerospace aluminum and Aeroflex™ foam not only make this seat the lightest infant car seat (5.3 lb*), but also provide superior protection and are free of fire retardant additives.

Top it off with the bubble-free, peace-of-mind install of RELX® base with on-the-go recline.

Take the heavy lifting out of parenting, and travel lite.

*Without insert or canopy matches Nano PIPA™ lite weight

PIPA lite r *highlights*

Weighing in at a mere 5.3 lbs*, the PIPA lite r joins the PIPA lite as the lightest USA infant car seat!

The PIPA lite r is a both ultra-portable and seriously protective thanks to:

- Aeroflex™ foam that is cleverly lightweight, resilient, and minimizes force transferred to baby by absorbing & diffusing energy
- Carefully curated high performance materials including aerospace aluminum and feather-weight fabrics

Additional features:

- Two-piece removable infant insert + head support. Customize to their individual shape and get a perfect fit right from birth.
- Buckle holders keep the harness out of the way when needed
- Includes new RELX base

Thank you

37% of the children killed in crashes are not in a car seat or restraint at all. Don't let Perfection be the enemy of Good – Better or Best Practice. Ensure they are restrained every ride, every time.
