

## WEST CENTRAL MINNESOTA TOWARD ZERO DEATHS STRATEGIC PLAN

### Mission

To move West Central Minnesota toward zero deaths on our roads, in a partnership with area education, enforcement, engineering and emergency services representatives.

### Goal 1 – Reduce TZD Fatality and Serious Injuries

To continuously decrease traffic related fatalities and serious injuries in West Central Minnesota from the past **5-year averages** 2016-2020 of 24 fatalities and 94 serious injuries. Note: New injury definitions were introduced in 2016 and may have contributed to a higher reported number of serious injuries.

### Objectives

- A. To continuously increase regional seatbelt use rates.

The statewide average **was 93.4% in 2019** (Note: due to the Coronavirus Pandemic, no statewide observational survey was conducted in 2020). The regional seat belt rate **was 78.5% in 2020**. The last survey finding of 77.3%, was in 2019.

- B. To examine the characteristics of the unbelted fatalities and serious injuries. Calculation of seat belt use in fatal and serious crashes is possible with existing data.

- C. To continuously decrease the following:

**5-year average (2016-2020) in West Central Region - Baseline Data**

*Contributing Factors:*

	<b>Alcohol</b>	<b>Speed</b>	<b>Distraction</b>	<b>Total</b>
