

**West Central Minnesota Toward Zero Deaths
Regional Workshop
April 19th, 2022
8:30 a.m.-3 p.m.**

Agenda

- 8:30 a.m. **Registration and Continental Breakfast**
- 9 a.m. **Welcome & Regional Roundup**
Shiloh Wahl, district engineer, MnDOT District 4, and west central Minnesota TZD regional co-chair and Katy Kressin, west central Minnesota TZD regional coordinator
- 9:15 a.m. **“I wish we were still on the plateau” – Crash Data Presentation**
Eric DeVoe, senior research analyst, MnDOT Office of Traffic Engineering
In 2021, the number of year-to-date traffic fatalities were the highest they have been in more than five years. Traffic deaths jumped an alarming 26 percent. Speeding was the leading cause of fatal crashes in Minnesota. What happened and why? What’s the data telling us regarding areas of concern?
- 9:30 a.m. **TZD 2.0 Updates**
Kristine Hernandez, State Toward Zero Deaths program coordinator & TZD 2.0 project manager, MnDOT Office of Traffic Engineering
How will the TZD program change? Hear recommendations from this year-long project, including reassessing the program structure as well as what TZD stakeholders identified as strengths and challenges of the current program.
- 9:40 a.m. **Making Safe System a Reality: Planning to Implementation**
Ken Johnson, assistant state traffic engineer, MnDOT Office of Traffic Engineering
The Safe System Approach is founded on the principles that people make mistakes and that human bodies have limited ability to tolerate crash impacts. Another key principle in the Safe System Approach is shared responsibility, which means that all the “Es” can (and should) be involved. This presentation offers a summary of the Safe System Approach, examine practical methods of what can be done in each of the 4-E domains as well as discuss local perspectives and ideas – the application of which will help us to reach the goal of zero deaths in Minnesota.
- 10:40 a.m. **Five Tips to Grow Traffic Safety Culture**
Katie Dively, M.S., MCHES, research scientist II - senior trainer, Center for Health and Safety Culture, Montana State University
Growing traffic safety culture can seem daunting, but there are actions everyone can take right now to grow a safer traffic safety culture. During this interactive workshop, researchers with the Center for Health and Safety Culture will engage participants in exploring five tips to grow traffic safety culture. Participants will leave with specific actions they can immediately put into practice, regardless of their role. Katie has led trainings across the U.S. about growing traffic safety culture, based on the Center’s research over the past two decades.
- 12 p.m. **Lunch & Exhibits**
- 12:45 p.m. **Five Tips to Grow Traffic Safety Culture Continued**

1:45 p.m.

What's our goal for 2022 and beyond?

*Katie Dively, M.S., MCHES, research scientist II - senior trainer,
Center for Health and Safety Culture, Montana State University*

We invite you to reflect on today's topics and consider how you can put what you learned into action. We have a goal of zero traffic deaths – how can we use what we learned today to start making these changes in our communities? Let's begin by individually reflecting on the questions below and then discussing as a table. Please capture your reflections in your handouts and provide your responses on the note cards provided your table.

1. From your perspective – what has been most meaningful from today's presentations?
2. What is giving you hope/energy to move forward?
3. What are your most important next steps?

2:45 p.m.

Wrap up

*Capt. Brian Cheney, Minnesota State Patrol, District 2900, and west central TZD
regional co-chair*

3 p.m.

Adjourn

***Please take time throughout the day to visit the traffic-safety exhibit tables for reference materials
and ideas to implement in your communities.***
